

Shopping trolleys series

DRC

At the global forefront of goods transport

DRC series

With base rack - more turnover

Because of its space-saving design the DRC series has loads of space for shoppers, especially with the large standard base rack. This is suitable for transporting large items and crates. The DRC basket volume ranges from 75 to a generous 185 litres.

Standard base rack

D 75 RC – D 90 RC

D 101 RC – D 185 RC

The space wonder

When people talk about shopping trolleys, millions of customers all over the world mean "a Wanzl", as it was our company founder who brought this great idea from the United States to Europe in 1953.

Since then the DRC has been subjected to numerous improvements and developed further to today's design. Currently this shopping trolley offer to be the constant companion of your customers. It is taken for granted, allowing your customers to concentrate fully on the goods on offer.

Technical advancement for shopping convenience

Careful manufacture

The distortion-proof baskets are accurately fashioned and the mesh is so narrow that even very small articles are safely stored. The robust base frame with rack can accommodate up to two crates with bottles containing up to 1.5 litres. The DRC is still easy to handle even when fully loaded.

Smooth running

Your "silent" trolley - original Wanzl castor wheels run on ball bearings, the rubber running surfaces and standard plastic deflector rings on the rear wheels ensure long-term smooth and silent operation. Noise-absorbing plastic hinges and fittings on the basket.

Permanent gloss finish

for Wanzl products. Only laboratory-tested coatings are used which effectively protect surfaces for years. We supply high-gloss galvanized-chromised coatings with baked plastic lacquer protection.

Guaranteed safety

All models of the DRC series are manufactured in accordance with international quality directives and meet the requirements of

- the European EN 1292-1 standard
- the draft European standards prEN 1292-2 -3 and -4.

Corporate Identity in motion - all day

As the constant companion of your customer, shopping trolleys transport goods equally as effectively as your messages. Make use of them for advertising!

Corporate identity is the central message of your market. Shopping trolleys in your corporate colour reinforce the overall image and round off the visual impression on your customers. Your colour trolleys are available with laboratory-tested powder coating on a galvanized base in RAL colours, which are suitable for foods. Seven attractive standard colours are available, e.g.

Flame red	RAL 3000
Pure orange	RAL 2004
Zinc yellow	RAL 1018
Green	RAL 6024
Ultramarine blue	RAL 5002
Light grey	RAL 7035
Anthracite grey	RAL 7016

Planning data

This page provides information and data to facilitate selection of a suitable trolley type and the correct number of trolleys.

Sales area

When ordering the trolleys the required quantity can be assessed by applying the rule of thumb one trolley per five square metres of shop area.

The goods range

The composition of the range on offer influences the selection of the size of the trolley type and the individual equipment.

							
Market type	Range of goods	Sales area (average)	Sales area (limits)	Location	Basket/ trolley volume	Trolley per 100 m²	Space requirements in m² for 10 trolleys
Self-service shop	Food	150	100-250	<ul style="list-style-type: none">• Central location in residential areas of cities and medium-sized towns• City suburbs• Central locations in small towns	60-75	22	1,8
Self-service market	Food	300	250-400	<ul style="list-style-type: none">• Rural communities with large catchment area• Central locations in residential areas of cities and medium-sized towns• City suburbs• Central locations in small towns	60-99	27	1,8
Supermarket	Food	650	400-800	<ul style="list-style-type: none">• Rural communities with large catchment area• Central locations in residential areas of cities and medium-sized and small towns• City centre locations in cities and medium-sized towns• Central locations in medium-sized and small towns	75-100	20	2,1
Supermarket in department store	Food	1100	800-1500	<ul style="list-style-type: none">• Sub-centres of cities• Central location in residential areas of cities, medium-sized and small towns• Central locations of medium-sized and small towns	90-130	19	2,3

Wanzl shopping trolleys

More than 20,000 tonnes of steel wire, more than 12,000 tonnes of metal tubing and a tremendous amount of design know-how - this is needed to produce one million shopping trolleys per year, each with an equally high standard of quality as the next - robust premium products with customer-friendly handling and smooth running, taken for granted as „companions of customers“ all over the world - every day.

Additional shopping trolley types:

- Shopping trolleys for children
- Shopping trolleys for passenger conveyors, carrier systems, with brakes
- Shopping trolleys for wheelchair users
- Shopping trolleys for special markets, furniture stores, garden centres, DIY stores
- Shopping trolleys for cash-and-carry markets
