

# Shopping trolleys series ELA

**wanzl**

Extra outside  
load facility:

series  
**ELA**

## More than meets the eye

The ELA series with a standard fitted folding crate holder provides a double advantage for customer and personnel - the goods are open to view at the checkout so that „stocktaking differences“ are reduced. The ELA can be loaded with crates. The basket volume ranges from 75 litres to a generous 185 litres.

Can be easily and quickly unfolded

Easy to load, safe transport and clear view for personnel

The crate holder automatically folds away when it is pushed in

# Extra turnover

The ELA series shopping trolleys turn into "heavy transporters" at the flick of a wrist. With the practical folding holder at a convenient height, crates of all kinds can be easily loaded and transported. The extra load volume ensures that the ELA boosts your sales.

Checkout personnel have everything in view at all times, and goods can be checked out with no effort. An additional advantage of the clever design - the extended crate holder folds away automatically when the trolleys are nested. As a result every centimetre is used for stacking and space-saving.

# More capacity for more turnover

## Careful manufacture

The distortion-proof baskets are accurately fashioned and the mesh is so narrow that even very small articles cannot fall through. The robust extra holder is suitable for heavy crates.

The handle with plastic sheathing can be provided with advertisements upon request and is screwed to the basket on the handle caps.

The wheels are attached to the base frame, which is made of robust oval tubing.

**3 years**  
guarantee on  
the wheel  
function

## Smooth running

Your "silent" trolley wheels run on ball bearings, the rubber running surfaces and standard plastic deflector rings on the rear wheels ensure long-term smooth and silent operation. Noise-absorbing plastic hinges and fittings on the basket.

## Permanent gloss finish

for Wanzl products. Only laboratory-tested coatings are used which effectively protect surfaces for years. We supply high-gloss galvanized-chromised coatings with baked plastic lacquer protection.

## Guaranteed safety

Alle Modelle der Serie ELA werden nach internationalen Qualitätsrichtlinien gefertigt und entsprechen

- the European EN 1292-1 standard
- the draft European standards prEN 1292-2 -3 and -4

# Corporate Identity in motion - all day

As the „constant companion“ of your customer, shopping trolleys transport goods equally as effectively as your messages. Make use of them for advertising!

**15. Corporate identity is the central message of your market. Shopping trolleys in your corporate colour re-inforce the overall image and round off the visual impression on your customers.**

**Your colour trolleys are available with laboratory-tested powder coating on a galvanized base in RAL colours which are suitable for foods.**

**7 attractive standard colours are available, e.g.**

Flame red	RAL 3000
Pure orange	RAL 2004
Zinc yellow	RAL 1018
Green	RAL 6024
Ultramarine blue	RAL 5002
Light grey	RAL 7035
Anthracite grey	RAL 7016

# ELA series

The ELA series enable customers to „take a crate on board“ and are ideal for stores with combination food and beverage sections. The big advantage is that the added space leads to added turnover, and the design protects theft at the checkout.

# Planning data

This page provides information and data to facilitate selection of a suitable trolley type and the correct number of trolleys.

## Sales area

When ordering the trolleys the required quantity can be assessed by applying the „rule of thumb“ one trolley per five square metres of shop area.

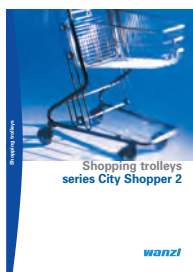

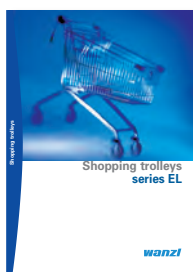

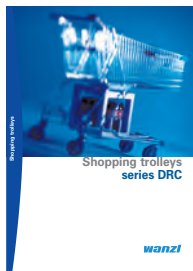

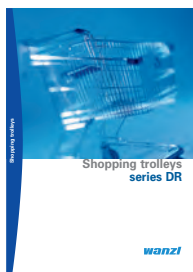

## The goods range

The composition of the range on offer influences the selection of the size of the trolley type and the individual equipment.

							
Market type	Range of goods	Sales area (average)	Sales area (limits)	Location	Basket/ trolley volume	Trolley per 100 m²	Space requirements in m² for 10 trolleys
Self-service shop	Food	150	100-250	<ul style="list-style-type: none"><li>• Central location in residential areas of cities and medium-sized towns</li><li>• City suburbs</li><li>• Central locations in small towns</li></ul>	60-75	22	1,8
Self-service market	Food	300	250-400	<ul style="list-style-type: none"><li>• Rural communities with large catchment area</li><li>• Central locations in residential areas of cities and medium-sized towns</li><li>• City suburbs</li><li>• Central locations in small towns</li></ul>	60-99	27	1,8
Supermarket	Food	650	400-800	<ul style="list-style-type: none"><li>• Rural communities with large catchment area</li><li>• Central locations in residential areas of cities and medium-sized and small towns</li><li>• City centre locations in cities and medium-sized towns</li><li>• Central locations in medium-sized and small towns</li></ul>	75-100	20	2,1
Supermarket in department store	Food	1100	800-1500	<ul style="list-style-type: none"><li>• Sub-centres of cities</li><li>• Central location in residential areas of cities, medium-sized and small towns</li><li>• Central locations of medium-sized and small towns</li></ul>	90-130	19	2,3

Drugstore		250	200-400	<ul style="list-style-type: none"><li>• Highly-frequented city locations</li></ul>	60-75	25	1,8
Drugstore		450	400-600	<ul style="list-style-type: none"><li>• Highly-frequented city locations</li></ul>	60-90	22	1,8

### Wanzl shopping trolleys

More than 20,000 tonnes of steel wire, more than 12,000 tonnes of metal tubing and a tremendous amount of design know-how - this is needed to produce one million shopping trolleys per year, each with an equally high standard of quality as the next - robust premium products with customer-friendly handling and smooth running, taken for granted as „companions of customers“ all over the world - every day.

### Additional shopping trolley types:

- Shopping trolleys for children
- Shopping trolleys for passenger conveyors, carrier systems, with brakes
- Shopping trolleys for wheelchair users
- Shopping trolleys for special markets, furniture stores, garden centres, DIY stores
- Shopping trolleys for cash-and-carry markets

### Shopping with system

- Goods transport
- Customer guidance
- Goods presentation
- Information displays
- Service products
- Logistics products
